

# RUSK STATE HOSPITAL PHARMACY

Mobile Modular installed a new temporary modular pharmacy at Rusk State Hospital to be used during a 3-year remodeling project of the hospital.

## THE CHALLENGE

The Health and Human Services Commission of Texas at Rusk State Hospital started the process of drawing up plans to remodel their onsite buildings. During the planning process, the HHSC recognized the need to replace their pharmacy and needed a temporary space for their personnel during the 36-month process.

## THE SOLUTION

Mobile Modular was engaged at the project inception to play a lead role in designing the building and establishing the project budget while maximizing the efficiency and effectiveness of utilizing the modular building solution. Throughout the project, Mobile Modular coordinated with the design and engineering team, City officials, and technical team to streamline and implement the first-of-its-kind modular building in Fernandina Beach, FL. As a licensed Florida General Contractor,
