

# FABCON PRECAST MODULAR LOCKER ROOMS

Mobile Modular provided Fabcon with a locker room building in a timely manner to help expedite their factory opening.

## THE CHALLENGE

Fabcon bought an old pre-cast concrete plant that was in need of immediate repairs. In order to expedite the opening of the factory floor to take orders, they needed a locker room building.

## THE SOLUTION

We provided them with a 24'x 60' locker and restroom that had 75 double-tier lockers for their employees. Because of the modular process, our team was able to expedite the lead time to 6 weeks in order to make sure they could open the factory floor in a timely manner.
