

MLP PA BUILDERS

Mobile Modular constructed a modular on-site building with four offices and a restroom for MLP PA Builders construction site.

THE CHALLENGE

MLP PA Builders needed an on-site office during the construction of new Discovery labs for the University of Pennsylvania Gene Therapy Program. This program focuses on expanding research operations for the development of genetic medicines.

THE SOLUTION

Mobile Modular was able to provide a double-wide building with 4 private offices and a restroom so MLP Builders has a place to house personnel on campus while the permanent construction is in process.

Customer Name: MLP PA Builders
Project Location: King of Prussia, PA
Building Type(s): Modular Office
Module Count: 2
Total Sq. Ft.: 1,344 sq. ft.
