

# PVS CHEMICAL SOLUTIONS

Mobile Modular builds a new locker/shower/break room facility for PVS Chemical Solutions, a Chicago manufacturer.

## THE CHALLENGE

PVS Chemical Solutions prioritized the quality of its production team's work environment with a new shower/locker/break room at its Chicago manufacturing operation.

## THE SOLUTION

The new building included showers, restrooms, and a locker area. In addition, we added a spacious break room that will also double as an employee meeting and special events area. The Mobile Modular design-build team provided a permanent structure including full turnkey construction services. We developed the 2,960 SF floor plan and worked with the project architect and permit expediter to walk the construction plans through the City of Chicago Building Department. The building design provides for 6 individual showers, a locker room with 96 steel lockers, a large restroom, and a 1,100 sq. ft. break room

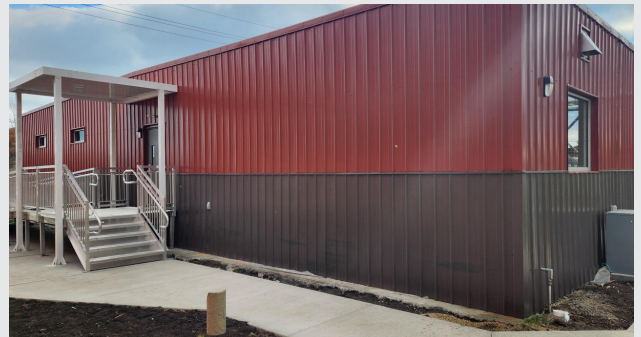

**Customer Name:** PVS Chemical Solutions

**Project Location:** Chicago, IL

**Building Type(s):** Modular Locker Room

**Job Type:** Sale

**Total Sq. Ft:** 2,975 sq. ft.
